FREECODECAMP (May 16th, 2024)

Google Information Technology Support

CURSERA AND GOOGLE (Jun 8th, 2024)

Google AI Essentials

CURSERA AND GOOGLE (Jun 8th, 2024)

Github Foundations

GITHUB (Jun 28th, 2024)

EXPERIENCE

Front End – volunteer

JS CONF CHILE/UX CORP (Oct, 2024 – Nov /2024)

I participated in the development of the landing page as part of the UX Corp team, using technologies such as Astro, TypeScript, React, and Three.js, among others. My contribution included implementing key components to ensure the project's functionality and user experience.

Full stack – qbytes

Under my personal brand qbytes, I carry out various activities, including:

- Creating and sharing projects and tools with my LinkedIn community, which have been well-received.
- Collaborating on open-source projects using different languages, technologies, strategies, and operating systems, with notable contributions to MAGIC UI and JS Conf Chile.
- Contributing to initiatives in communities like UX Corp, promoting collective development.
- Developing applications and plugins available in browser stores and the ChatGPT extensions store.

Soft Skills

- Teamwork
- Effective communication
- Self-learning
- Problem-solving
- Time management
